Respiration 309

Ventilator Accessories

Disposable Non-invasive EEG Sensor

Product Features

1. More than 10 years of experience in the development of hemp deep electrodes and 20 years of experience in adapter development, supporting products with better compatibility;
2. Rich in products, we can provide sensors that are compatible with BIS, CSI, PSI, IOC, NTI, Entropy Index and other technologies;
3. We can provide dealers with a variety of adapter cables to support the development of new hospitals and increase usage;
4. Can provide connectors with better waterproof performance, suitable for head surgery;
5. The electrode size is small and can be used simultaneously with cerebral oxygen on the forehead.

Order Code	Original Part Number	Product Picture	Description	Compatible Module	OEM Manufacturer & Models

OEM & ODM Service

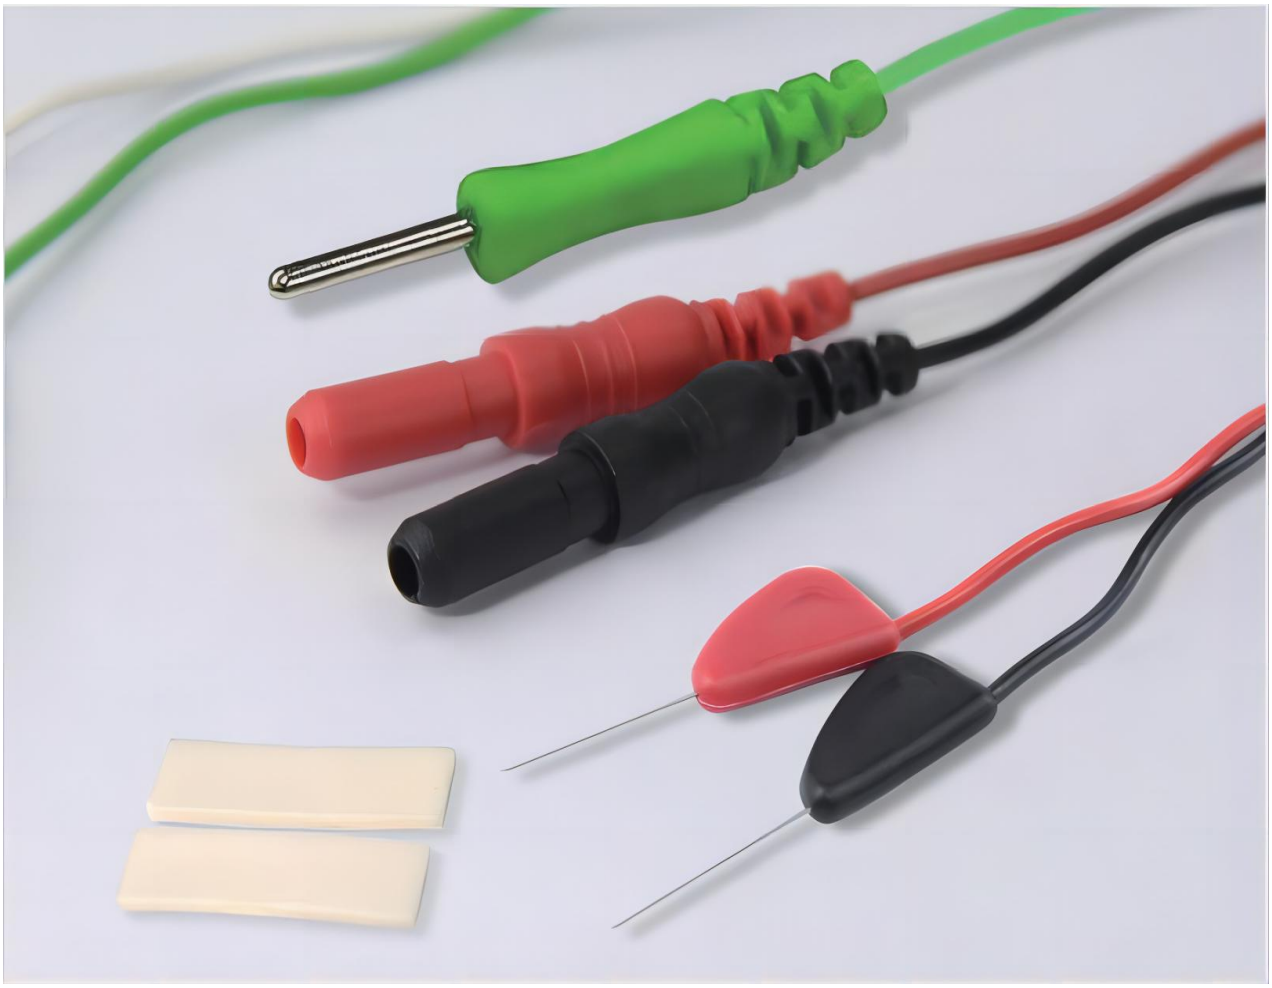

- Medlinket is a leading provider of sockets, signal wires, medical cable and lead wires, electrode materials, processing technology, mould and product technical standard for ECG, EEG and EMG.
- OEM and ODM are available, which are supported by a wide range of technical support and services from experienced engineers.
- Let us know what you design or think, then we will do the rest as you imaged.

1 Sterile Disposable Subdermal Needle Electrodes

Product Features

1. Sterilized by EO gas, Single patient use only;

2. To provide easy and secure recording when placed directly into the scalp;

3. Made of stainless steel and designed for strength and flexibility;

4. The tip is sharpened with precision to an ultra-sharp lancet cut for easy penetration;

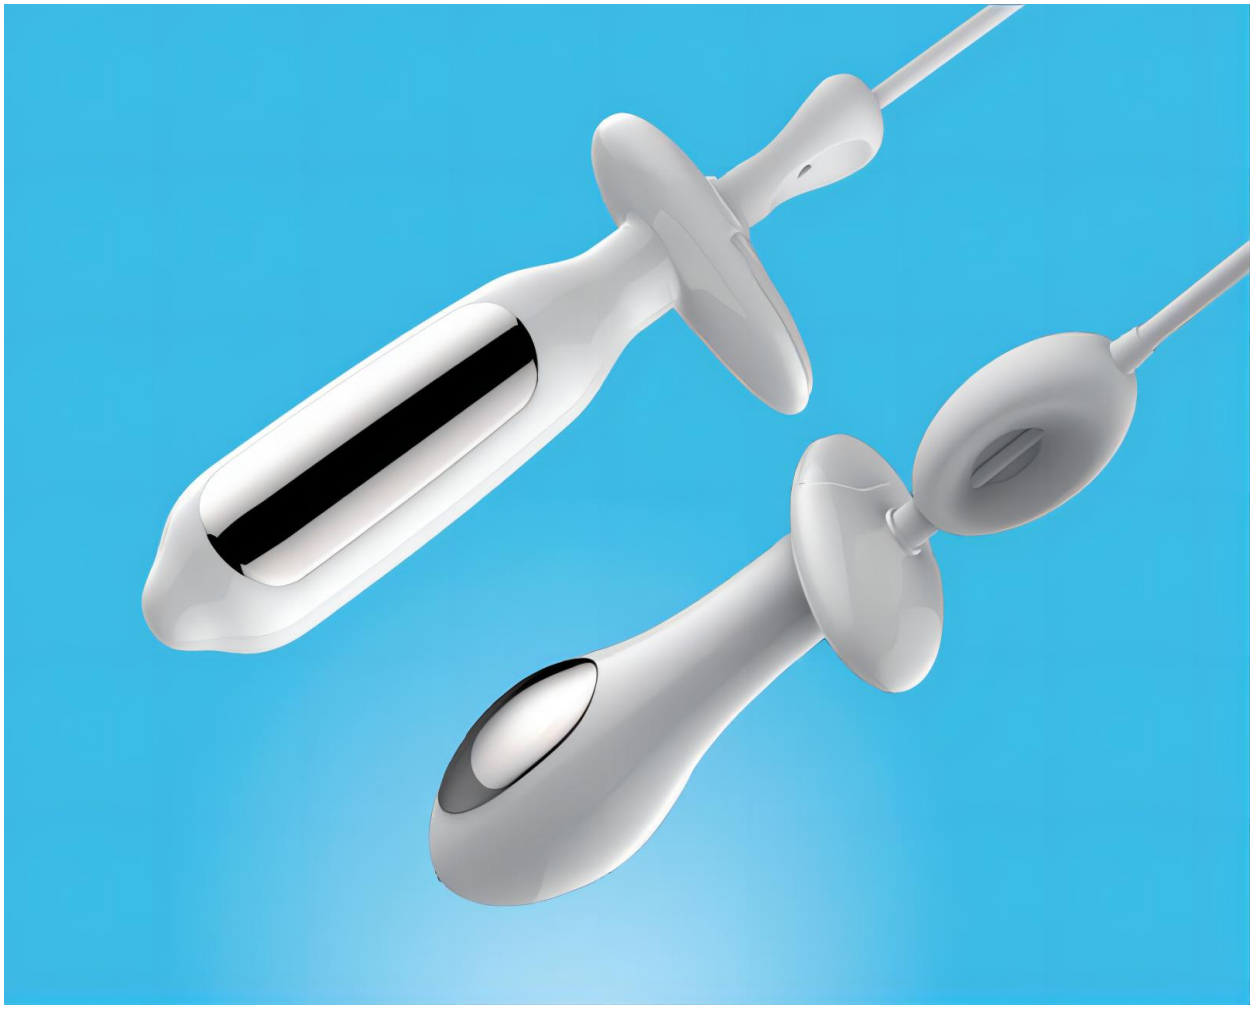

5. The twisted lead wires reduce noise and impedance levels giving a clean, clear signal.

Size: 25mm, 28mm, 38mm, 50mm, 60mm

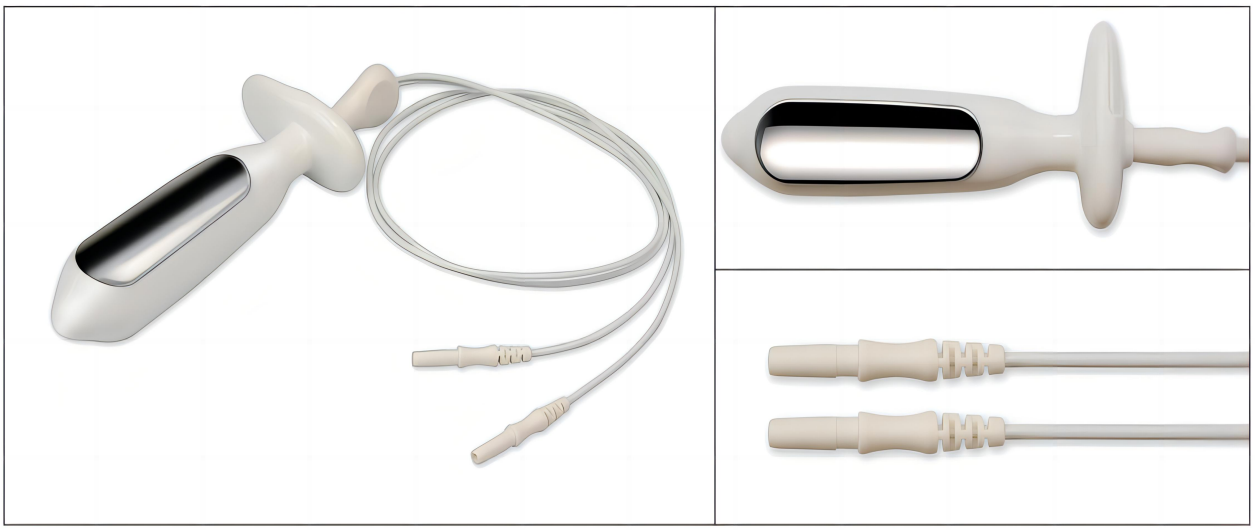

2 Pelvic Floor Muscle Rehabilitation Probe

Product Features

1. Pelvic floor muscle probes designed on the foundation of customers demand and ergonomics are compatible with all types of hosts and play a role in health care;
2. The probes integrally designed have a smooth surface, which, to maximum degree, promote the comfort;
3. Flexible handle design not only can make it easy to place and remove probe, the handle can also be bent and hidden to protect privacy when wearing pants.

		PE0003	Vaginal Pelvic Floor Muscle Rehabilitation Probe	Line length approximately 0.32m	1 pc/Bag
		PE0010	Vaginal Pelvic Floor Muscle Rehabilitation Probe	Line length approximately 0.68m	1 pc/Bag
		PE0020	Rectal Pelvic Floor Muscle Rehabilitation Probe	Line length approximately 0.68m	1 pc/Bag

New Product PE001

Surface electrodes for nerve and muscle stimulators

TE001NW

TE002NW

Product Features

1. Disposable use,avoiding cross-infection;
2. High-quality conductive hydrogel with good viscosity and low contact resistance;
3. Good biocompatibility, Latex free,free from biological hazard to skin.

Scope of Applicatior

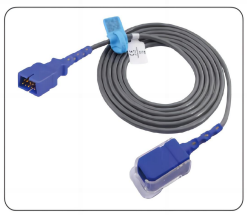

It is used on the skin surface to conduct the electrical stimulation signal output by the electrotherapy equipment to the human body through the conductive material.

Product Specifications

OEM Manufacturer & Models	Order Code	Description	Package
Biostimulation feedback instrument, electrophysio_x005f logical parameter monitor, electrophysiological stimulator, physiotherapy instrument	TE001NW	Din type 2.0, tail wire electrode, 100*50mm	2pcs/bag
	TE002NW	Din type 2.0, tail wire electrode, 50*50mm	3pcs/bag

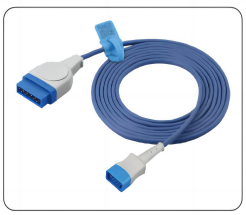

SpO_2 Sensors & Adapter Cables

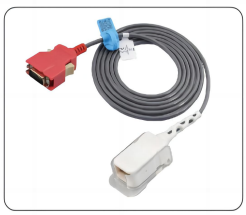

S0026OX-L

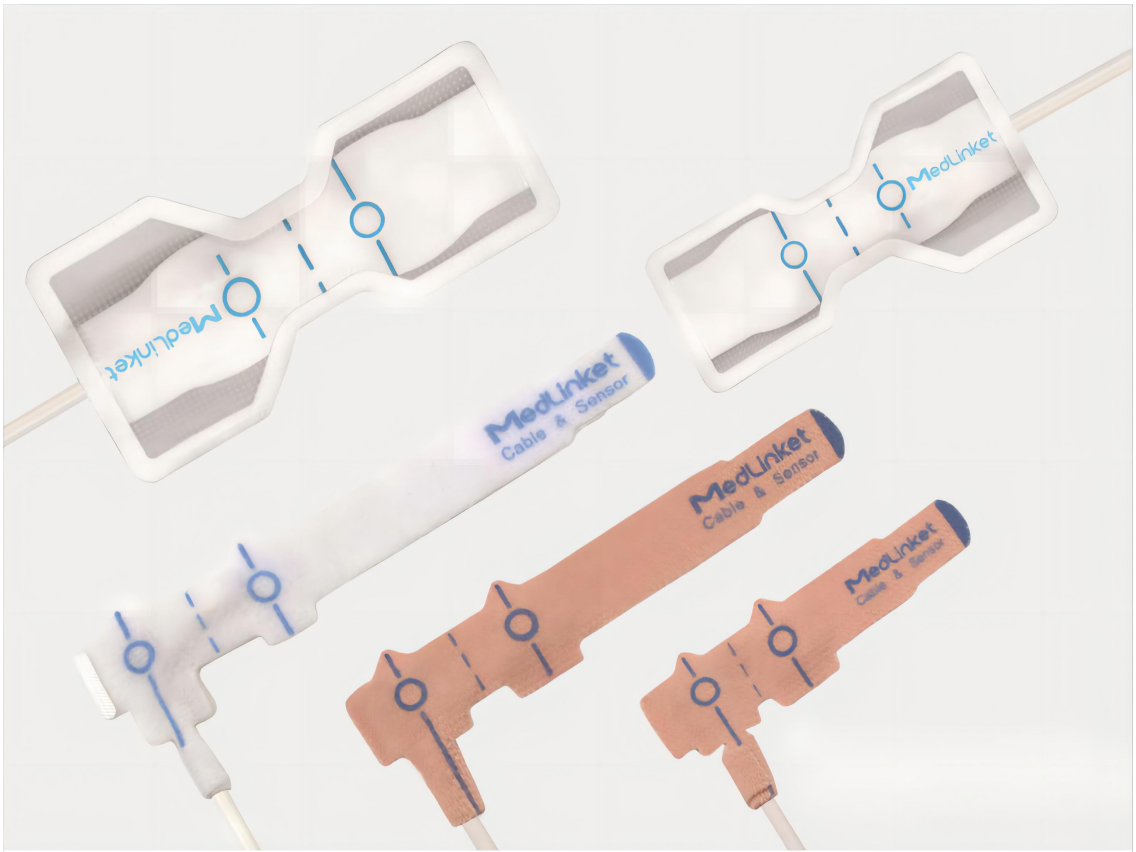

S0015OX-L

S0190TS-L

S0442CS-L

1 Disposable SpO2 Sensors

Code Rule Description

□□□□□□□□□

Lenght specification:
1: 0.45m; **2:** 0.9m

Compatible feature No.:
010(Nellcor), 026(Nellcor-Oximax)

Tape style or material: 1: microfoam;
2: transpore; **3:** fabric; **4:** elastic fabric;
5: comfort foam;
6: transpore(Medlinket new design);
7: elastic fabric(Medlinket new design);
8: comfort foam(Medlinket new design)

Suitable patient size: 1: adult;
2: pediatric; **3:** infant; **4:** adult/pediatric/infant/neonate

Product series:
1: S0026 series; **2:** S0010 series;
3: S0136 series; **4:** S0010 series with temperature measurement function;

0: Disposable unsterilized SpO_2 sensors
1: Disposable sterilized SpO_2 sensors

Sales area: 9: CN; **6:** EU

Product Features

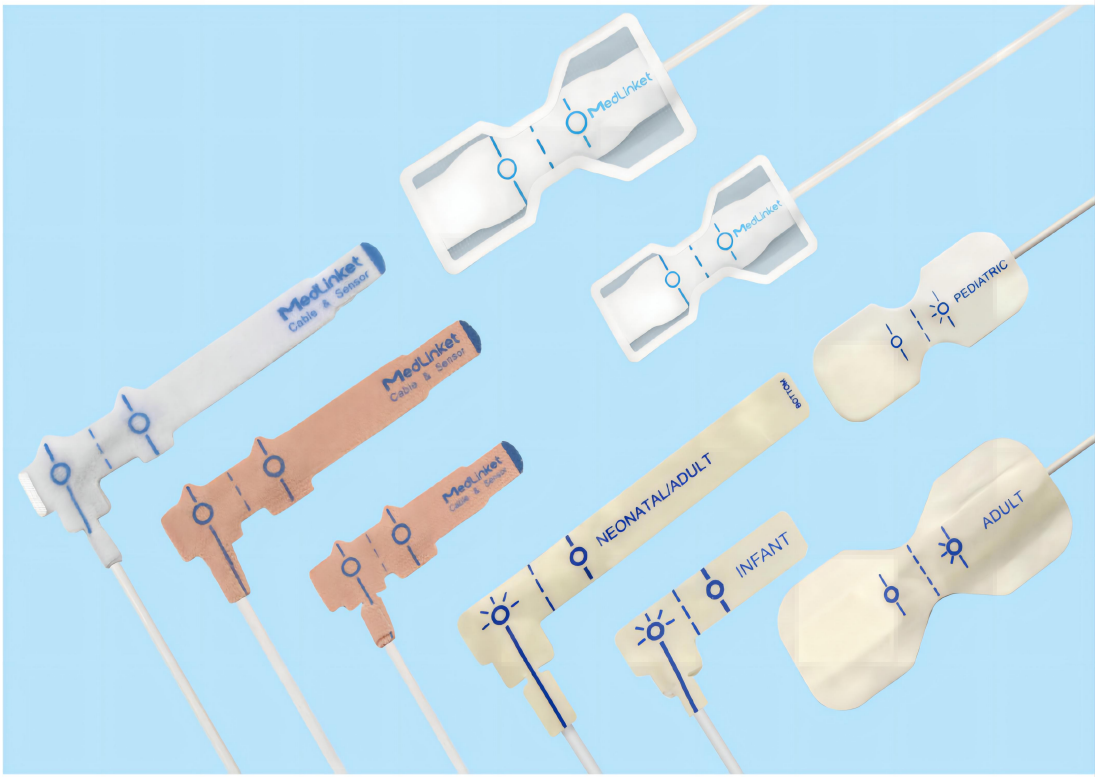

1. Disposable, used by single patient without cross infection;
2. High accuracy: evaluation of SpO_2 accuracy by comparing arterial blood gas analyzers;
3. Good compatibility: it can be adapted to the mainstream brand monitor of the hospital, such as Nellcor, Masimo, GE, Philips, Mindray, etc.;
4. Safety guarantee: latex free, good biocompatibility, free from biological hazard to skin.

Application	Adult＞30kg	Pediatric 10~50kg	Pediatric 10~50kg	Adult＞30kg	
Application Site	Index or other finger	Index or other finger	Index or other finger	Index or other finger	

Product Advantages

High precision

1. Provide a reference blood gas analyzer for SpO2 clinical validation report, accuracy meet the requirements of NMPA/FDA/CE standards;
2. Optimize the wavelength of the light source and detector parameters through experimental design to adapt to different measurement areas such as thickness, skin color, gender, age, make sure accuracy and wider application range.

Strong resistance to light interference

Inside with good anti light interference materials, it can maintain accuracy even under strong light.

Accuracy

Unique sensor positioning design to avoid measurement errors and burn risks caused by severe misalignment between the light source and sensor.

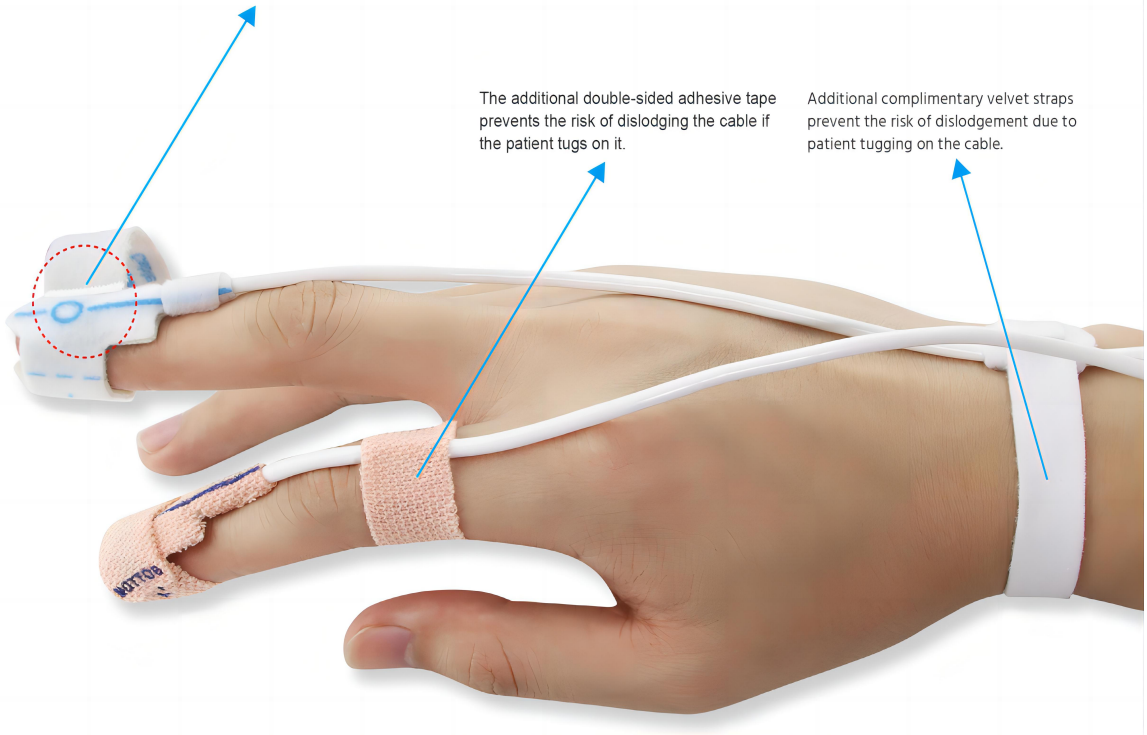

Comfortable

Breathable materials make patients more comfortable and reduce the impact of sweat on sensors.

Unique patented design

The wrapping tape can be quickly fixed when wrapping around the first circle of the patient's position, not easy to deviate, making the entire wrapping effect more firm and improving the quality of care.

SL0467A		Animal lingua clip, middle size			

2 Multi-compatible Disposable SpO2 Sensors

Supplied a most range of SpO2 adapters, covering most patient monitors (such as Philips, GE, Drager, Mindray, Nihon Kohden, etc) in hospital departments.Connect the SpO2 adapters with SpO2 extension cable, to achieve one kind of SpO2 probe that can be compatible with most monitors in the hospital, reducing costs and improving efficiency.

Time cost

Reduced workload by eliminating the need for staff matching;

Cost saving

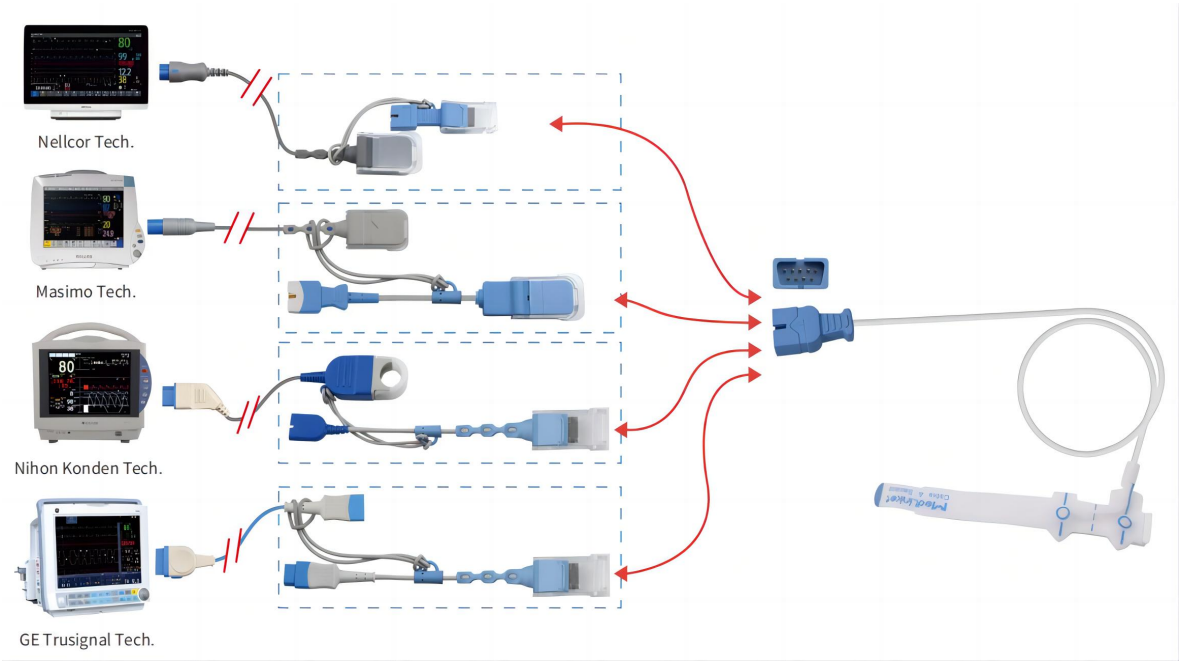

Single product, only consider the overall use for stock, no need to split compatible models;

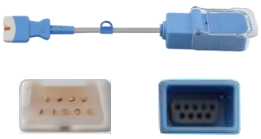

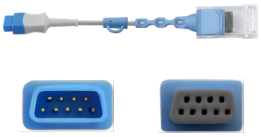

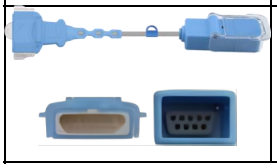

Inventory management

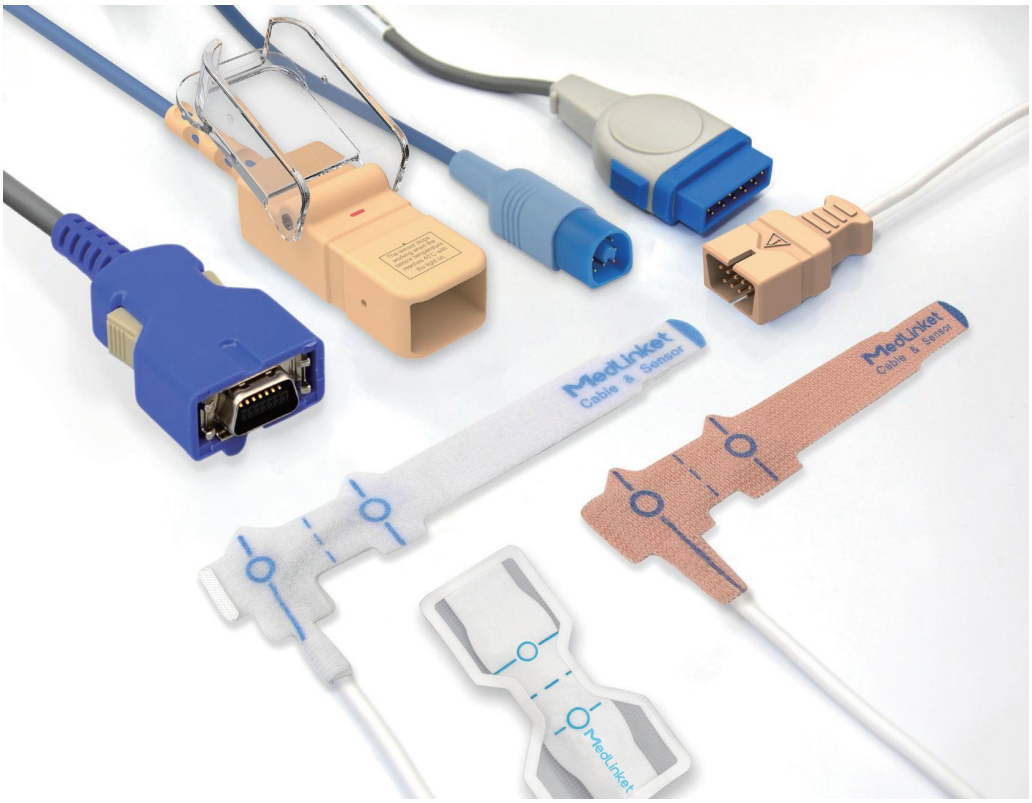

Single product, no need to consider the different models of compatible probes ought to be equipped with stock matters;

Stock plan

The SpO2 probe enables the compatibility of monitors with different SpO2 module technologies when occur inside and outside the patient transfer unit and operating theatre, it's save patient costs and enhancing the patient experience.

3 Over-temp. Protection SpO2 Sensors

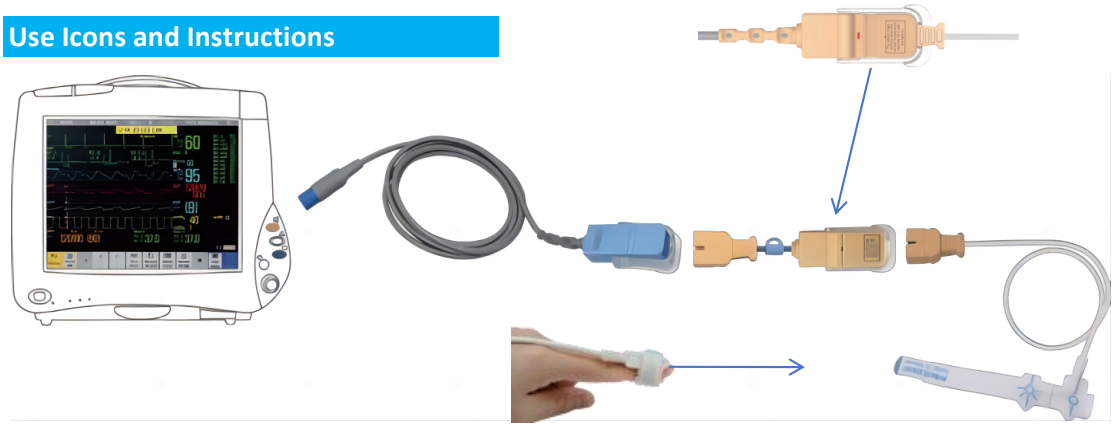

Product Features

1. Over-temperature monitoring: there is a temperature sensor at the probe end. After matching with a dedicated adapter cable and monitor, it has a partial over-temperature monitoring function, reducing the risk of burns and reducing the burden of regular inspections by medical personnel;
2. More comfortable: the smaller space of the probe wrapping part and good air permeability;
3. Efficient and convenient: v-shaped probe design, quick positioning of the monitoring position; connector handle design, easier connection;
4. Safety guarantee: good biocompatibility, no latex;
5. High accuracy: evaluation of SpO2 accuracy by comparing arterial blood gas analyzers;
6. Good compatibility: it can be adapted to mainstream brand monitors, such as Philips, GE, Mindray, etc;
7. Clean, safe and hygienic: production and packaging in the clean workshop to avoid cross-infection.

Scope of Application

1. Operating Room (OR)
2. ICU
3. Neonatology
4. Internal Cardiovascular Dept.
5. Cardiothoracic Surgery Dept.

Use Icons and Instructions

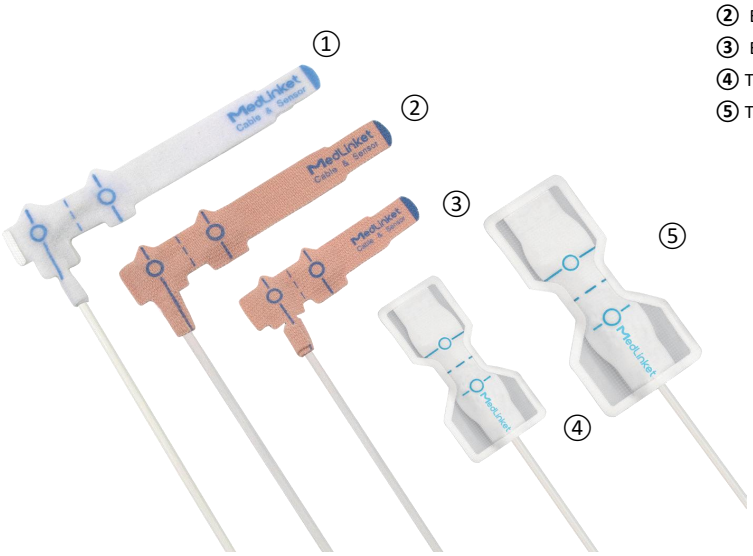

The SpO2 sensor is equipped with a temperature sensor. After being matched with dedicated adapter cable and monitor, it has a partial over-temperature monitoring function, which reduces the risk of burns and reduces the burden of regular inspections by medical personnel.

The following conditions may be at risk of skin burns:
1) The patient's measurement site has weak perfusion and cannot take away the sensor temperature through normal blood circulation;
2) The measurement site is too thick; (for example, the foot of newborns whose weight are more than 3.5KG are too thick and should not be wrapped for measurement)
3) Failure to regularly check the sensor and change the position.

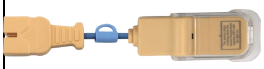

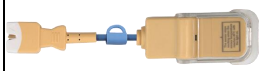

1.Please read the instructions carefully before use, and use the product according to the instructions;
2.When the skin temperature of the patient's monitoring site exceeds 41℃, the sensor will stop working immediately. At the same time, the indicator light of the SpO2 sensor adapter cable emits a red light, and the monitor emits an alarm sound, which prompts medical personnel to take timely measures to avoid burns;
3.When the skin temperature drops below 41 ℃, the sensor will restart to monitor SpO2.

Sensor Categories

4 Reusable SpO2 Sensors

Code Rule Description

S □ □□□□□

- L: long wire, L=3.0 m (direct connect)
- S: short wire, (need extension cable)

Sensor type:
- **B:** Adult finger clip
- **C:** Pediatric finger clip
- **D:** Adult silicone soft tip
- **P:** Pediatric silicone soft tip
- **E:** Infant silicone soft tip
- **F:** Neonate wrap senso(undetachable)
- **G:** Adult ear clip sensor
- **I:** Neonate wrap sensor (detachable)

Brand code: 0010/Nellcor

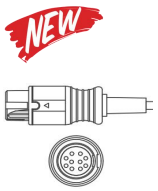

S: Indicated SpO2 sensor

Product Features

1. High SpO2 Accuracy: Passed the clinical accuracy verification of American clinical laboratory, the First Affiliated Hospital of Sun Yat-sen University, and Yuebei People's Hospital.
2. Compatible with Nellcor, Masimo, Philips, GE, Drager, Nihon Kohden, Mindray, Spacelabs, Nonin,etc.
3. Suitable for adults, Pediatric, Infant, Neonatal, and also other skin color people as well as veterinary.
4. Well anti-electromagnetic interference, suitable for complex electrical environment.
5. Anti-dust design, TPU cable, injection molding process(plugs, strain relief), durable and comfortable.
6. Biocompatibility passed, avoiding allergic reactions to patient.
7. Latex free.

5 SpO2 Adapter Cables

Code Rule Description

Product Features

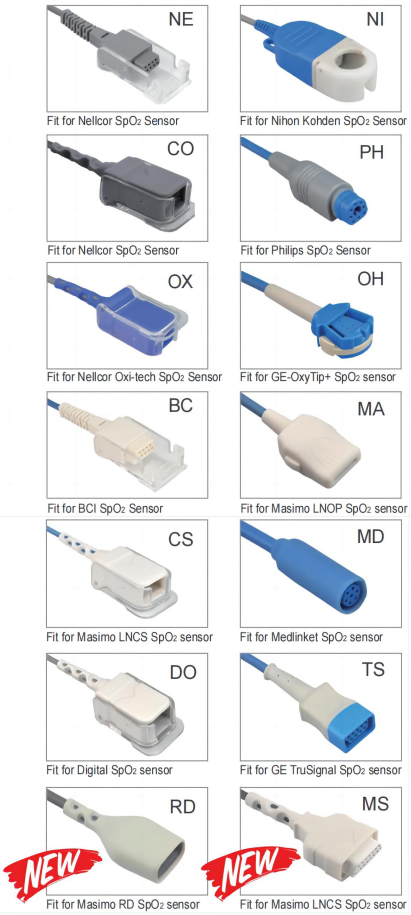

1. Well anti-electromagnetic interference, suitable for complex electrical environment;
2. Easy to change sensor, meeting clinical require_x005f ments for patient use;
3. Anti-dust design, TPU cable, injection molding process, more comfortable to use;
4. Fully compatible with OEM technology;
5. Latex free.

EtCO2 Sensor & Accessories

Product Introduction

Medlinket provides a cost-effective EtCO2 monitoring program for clinical practice. It is plug-in and play.
Advanced non-spectrophotometric infrared technology can be used to measure the instantaneous CO2 concentration, respiratory rate, end-tidal CO2 value and inspired CO2 concentration of the measured object.

Application Field

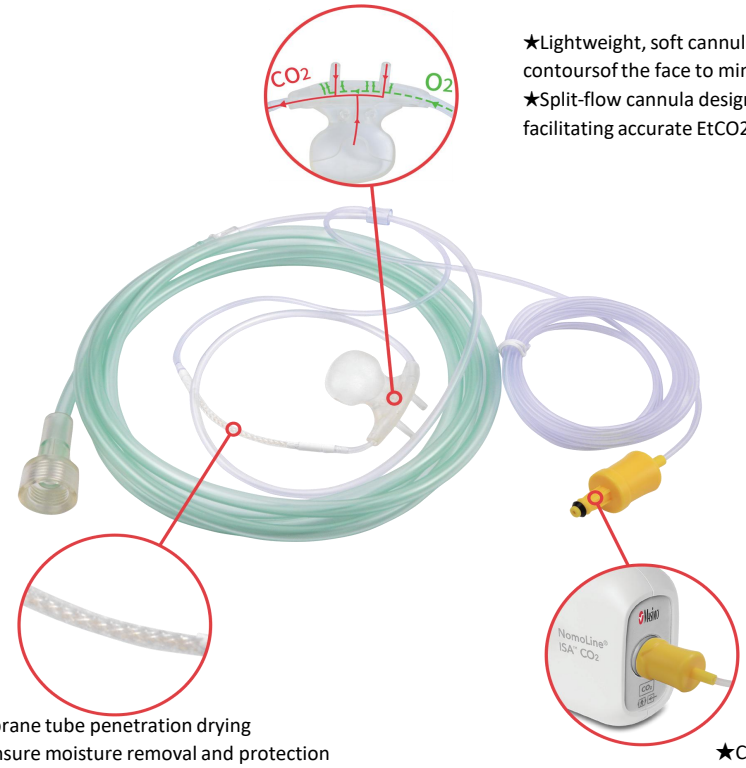

1. Monitoring the patient's respiratory status;
2. Assists in determining when to intubate or extubate;
3. Verification of ET tube placement;
4. Alerts if accidental extubation occurs;
5. Ventilator disconnect detection;
6. Verification of ventilation during transport.

Clinical Significance

EtCO2 monitoring has great application value and significance to the clinical. EtCO2 monitoring device is a quite valuable alarming system with timely, accurate detection of some incidents and severe combinations to avoid the occurrence of severe hypoxia injury. It can dramatically improve the safety of surgery and anesthesia, which not only benefits the patients, but protects the safety of the clinical personnel themselves.

1. External: American Society of Anesthesiologists (ASA) requires that all the patients under anesthesia should be set for EtCO2 and SpO2 monitoring.
2. Internal: the partial pressure of EtCO2 has been considered as another basic vital sign besides body temperature, respiratory rate, heart rate, blood pressure, electrocardiogram, and arterial oxygen saturation.

Product Features

★Lightweight, soft cannulas with a curved design fit the contoursof the face to minimize pressure
★Split-flow cannula design reduces gas mixing, facilitating accurate EtCO2 measurements

★Unique membrane tube penetration drying technology to ensure moisture removal and protection of equipment
★Compated with low humidity sampling lines, it can effectively prolong the use time of sampling lines (≤ 120h)

★Compatible NomoLine (ISA) CO2 Sidestream Gas Analyzer Modules

Temperature Probes & Adapters

Temperature is one of the five basic vital signs standards in a critical care setting. Continuously monitoring temperature provides important insight into patient health and can help caregivers detect changes in condition as an early indicator of infection. Both our single-use and autoclavable reusable probes are designed for measuring temperature at a variety of sites, such as Foley catheter, esophageal and rectal temperature probes. They are simple to use, support standardization of probes across the hospital and help enhance efficiency and quality of care.

Yoke Type

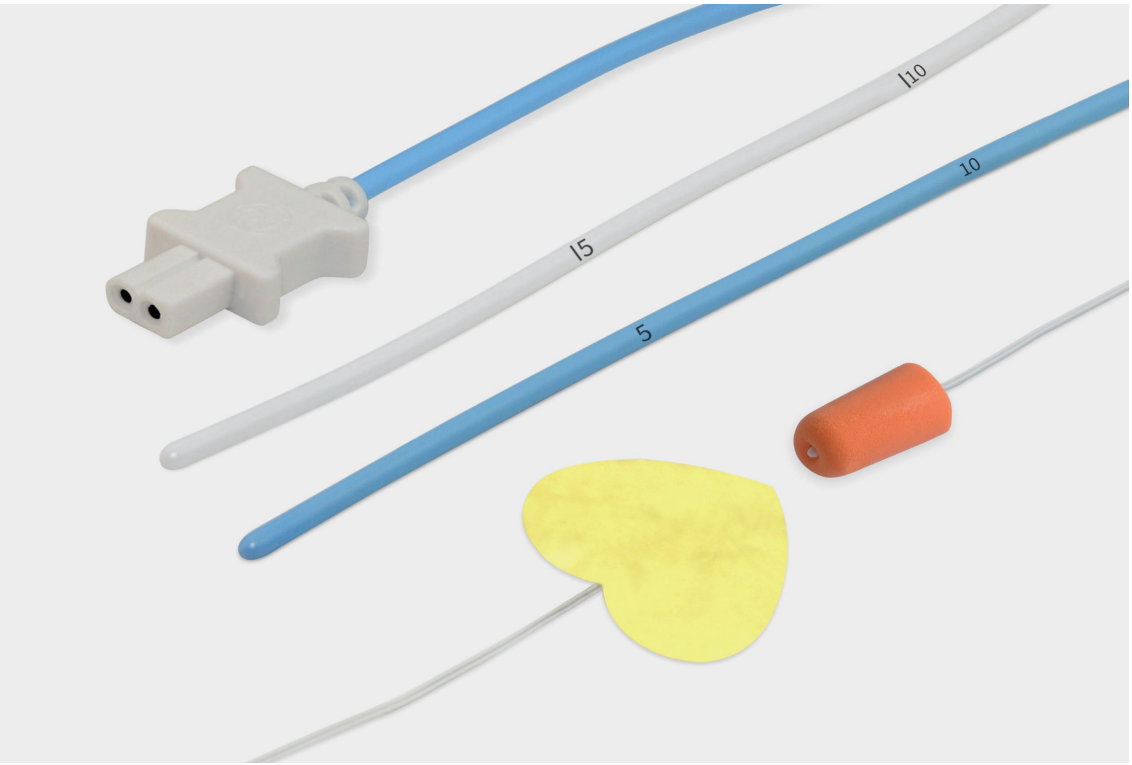

- G — Rectangle 2P yoke
- H — 3.5 stereo Jack yoke
- J — DC5.5x2.5 Jack
- T — Dual Female 6.35 mm Jack Yoke

Disposable Temp. Probe Connector

- Rectangle 2p plug
- 3.5 Mono plug
- DC 2.5 plug
- 6.35 Mono plug

Probe Type & Code

- A — Reusable skin-surface probes for adult
- B — Reusable esophageal/ rectal probe
- C — Reusable skin-surface probes for Pediatric
- D — Reusable esophageal/ rectal probe for Pediatric
- N — Reusable skin surface probes for Neonate
- E — Disposable Skin-surface Probes
- F — Disposable Esophageal/ Rectal Probes
- Disposable ear canal probes
- Foley Catheter Temperature Probes

1 Disposable Temperature Probes

Product Features

1. Single patient use, prevent cross infection.
2. The accuracy of the thermister is ±0.1°C from 25°C to 45°C.
3. Electromagnetic compatibility.
4. Biocompatibility passed.
5. The reflector can effectively insulate ambient temperature and radiant ight(Skin-surface).
6. The medical blue PVC tube provides atraumatic insertion.Leakage current of the temperature probe(thermistor and PVC tube) is well withinclinically accepted non-hazardous levels(Esophageal/Rectal one).

Medlinket Provide Sterile Disposable Temperature Probes.

Disposable Sterile Temperature Measuring Catheter

Product Features

Dual functions, it can not only do urinary catheterization but also monitor the patient's body temperature anytime without interruption;
It can accurately measure the bladder temperature consistent with the intracranial body temperature, effectively reducing the intraoperative risk caused by intraoperative temperature changes;
One-time use for a single patient to prevent cross-infection;
The product is made of silica gel and can stay in the body for a longer time (28 days);
The product specifications and models are complete, and there are many options for clinical use.

Scope of Application

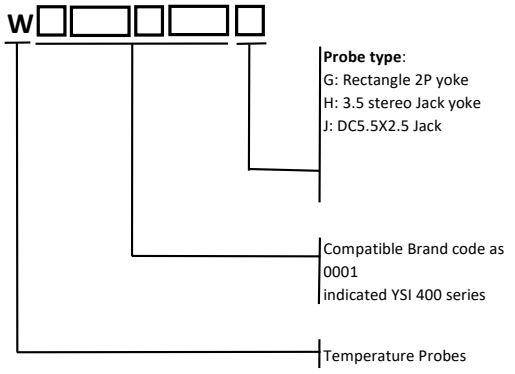

Used together with a monitor, it is used for one-time use during catheterization and drainage of patients, and can detect bladder temperature at the same time.

4 Infant Incubators

Warmer Temperature Probes

Type Designation

Probe Type and Code

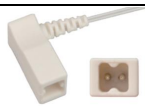

Reusable Skin-surface Probes for Pediatric

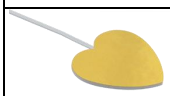

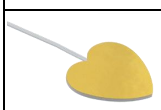

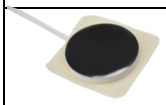

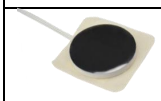

Disposable Skin-surface Probes

Product Features

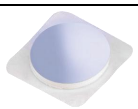

1. The accuracy of the thermister is ±0.1°C from 25°C to 45°C.
2. Hydrogel stickers available, which is more friendly to babies, and biocompatibility passed.
3. Electromagnetic compatibility.
4. The reflector can effectively insulate ambient temperature and radiant light(Skin-surface).
5. Fully compatible with most of patient monitors.

Temperature Probe Accessories

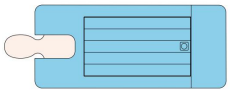

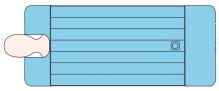

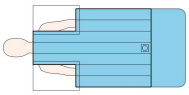

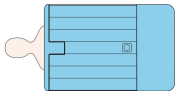

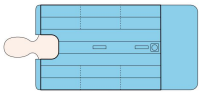

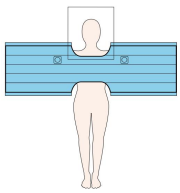

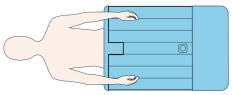

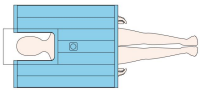

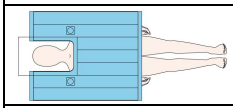

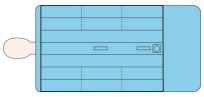

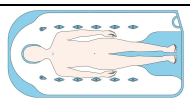

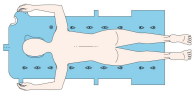

Order Code	Product Picture	Descriptions	Scope of Application/ Characteristics	
BZ0109D		Heart shape 28.8*30mm, reflective radiating patch	The radiation reflection paste is used in combination with reusable and disposable temperature probe, which is fixed on human epidermis to ensure more accurate body temperature detection. Characteristic: 1) Which can effectively isolate ambient temperature and radiated light; 2) Optional hydrogel radiation reflective patches that are more friendly to infants.	
BZ0501A		Circular shape, 30mm, reflective radiating patch		
BZ0109F		Heart shape, 28.8*30mm, hydrogel reflective radiating patch		

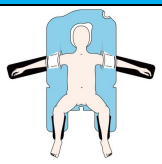

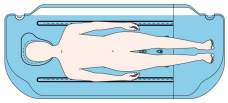

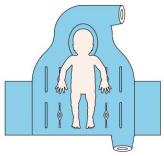

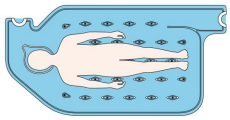

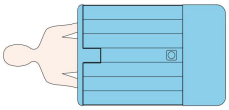

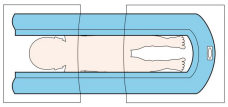

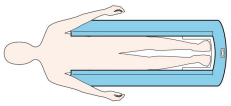

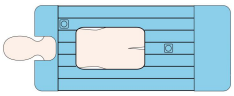

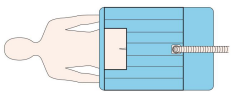

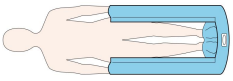

5 Disposable Warming Blankets

The disposable sterile warming blanket provided by Medlinket is a powered inflatable warming blanket, which meets the requirements of in-hospital anesthesia operating room sensory control, can effectively solve the phenomenon of hypothermia in surgical patients, reduce the probability of chills during the awakening period, and shorten the awakening time of patients.

Medlinket can provide 24 types of warming blankets for different clinical needs (e.g. preoperative, intraoperative, postoperative, padding blanket), and special warming blankets according to special needs (e.g. cardiology, interventional catheter, pediatrics, amputation position, etc.) to meet all patients warming needs.

1 Disposable ECG Electrodes

Product Features

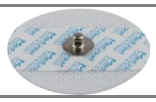

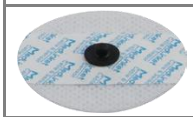

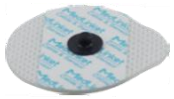

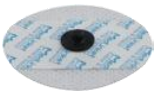

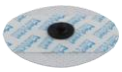

1. The product is suitable for different patients; newborns, children, adults;
2. The product is suitable for different departments; such as diagnosis, monitoring, telemetry, DR, CT, MRI (X-ray);
3. High-quality medical pressure-sensitive adhesive provides strong adhesion, and will not fall off easily even whensweating;
4. Use unique polymerization technology to reduce skin rashes and skin disorders;
5. Latex free, plasticizer free, mercury free.

According to the different needs of customers, we can provide customized designs of different materials, shapes and patterns.

2 Disposable ECG Leadwires

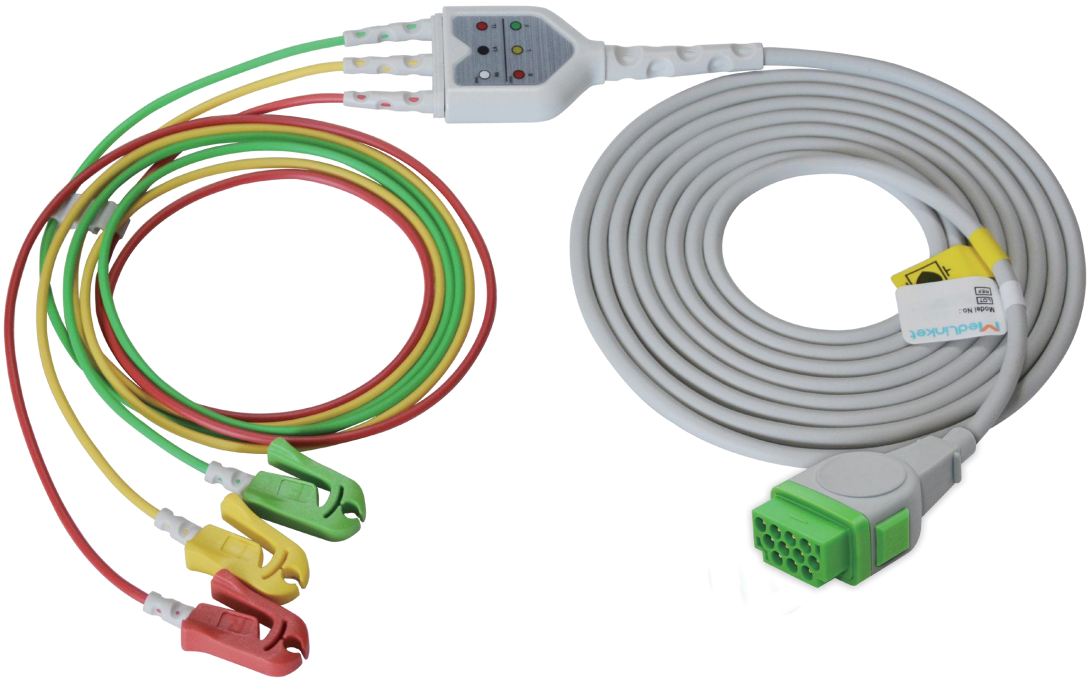

Product Advantages

Photo	Feature	Advantage
	Single Patient Use	Decreases the risk of cross contamination and improves patient care.
	Fully Shielded Leadwires Design	Reduces the risk of Electromagnetic Interference (EMI).
	Peelable Ribbon Cable Design	Prevents lead wire entanglement and can be customized to fit any patient's body size.
	Side button and visual connection design	(1) Provide clinicians with a locking and visualization mechanism to achieve faster, efficient and firm connections; (2) Clinically proven to reduce the risk of "leads off" false alarms.
	Easy to used electrode colors Lightweight smooth design	(1) Easy and quick lead placement; (2) Increase patient comfort.

Product Features

1. For adult and pediatric patients;
2. Meeting the requirements of EC53;
3. Integrated design, convenient for use and maintenance;
4. Flexible and durable cables, enduring repeated cleaning and disinfection;
5. Outstanding shielding property and anti-interference performance, protecting ECG signal from being interfered;
6. The electrode connector has a clear color mark, which can quickly and easily connect the electrode position;
7. Latex free.

4 ECG Trunk Cables

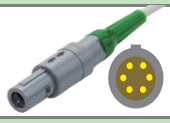

Type Designation

E □□ □□□□□□

- Color coding:
  3A/I: 3-Ld, AHA/IEC
  3I: 3-Ld, IEC
  5A/I: 5-Ld, AHA/IEC
  5I: 5-Ld, IEC
- Means "-" For example: ED008-3A
- Length, as 040 indicated 40 in.
- Yoke type:
  A: one-piece;
  B: Lifelinc, (LL);
  C: Din style;
  D: AA style;
  E: VS style
- E: Indicated patient minitor ECG cable and lead wires

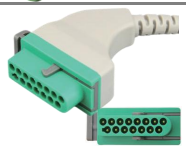

Product Features

1. Easy to replace leadwires;
2. Meeting the requirements of EC53;
3. Flexible and durable cables, enduring repeated cleaning and disinfection;
4. Outstanding shielding property and anti-interference performance, protecting ECG signal from being interfered;
5. Excellent defibrillation-proof performance, protecting the equipment well;
6. ESU-proof, ensuring ECG signals not interfered during operation;
7. Latex free.

5 ECG Leadwires

Type Designation

E □□ □□□□□

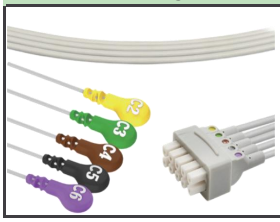

- Color coding:
  3A: 3-Ld, AHA(AAMI)
  3I: 3-Ld, IEC
  5A: 5-Ld, AHA(AAMI)
  5I: 5-Ld, IEC
- Electrode end: S: Grabber; C/A/N: clip (grabber)
- Length, as 040 indicated 40 in.
- Yoke type: B: Lifelinc, (LL) C: Din style
  D: AA style E: VS style
- E: Indicated patient minitor ECG cable and leadwires

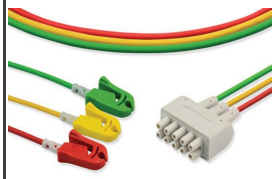

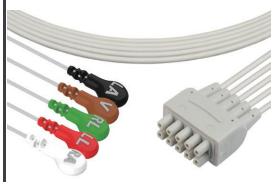

Product Features

1. For adult, pediatric and neonate patients;
2. Meeting the requirements of EC53;
3. Integrated two-color molding with flexibility,seamless connection and dustproof design;
4. Flexible and durable cables, enduring repeated cleaning and disinfection;
5. Outstanding shielding property and anti-interfer_x005f ence performance, protecting ECG signal from being interfered;
6. Use different color cable to indicate the corresponding use lead wires position, easy to identify and operate;
7. Latex free.

6 ECG Telemetry Leadwires

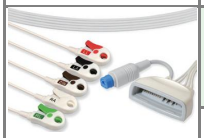

Product Features

Photo	Feature	Advantage
	Spring-loaded gold-plated connector	Safe and reliable connection.
	Fully Shielded Leadwires Design	Reduces the risk of Electromagnetic Interference (EMI).
	Peelable Ribbon Cable Design	Prevents lead wire entanglement and can be customized to fit any patient's body size.
	Side button and visual connection design	(1) Provide clinicians with a locking and visualization mechanism to achieve faster, efficient and firm connections; (2) Clinically proven to reduce the risk of “leads off” false alarms.
	Easy to used electrode colors Lightweight smooth design	(1) Easy and quick lead placement; (2) Increase patient comfort.

Medtronic 5318,5388, 5348，53401 Temporary Pacemaker			HC067C2A	Din 2mm Sockets with alligator clip	

8 Defibrillation ECG Cables

Product Features

1. Integrated plug connector, solid and easy to clean;
2. The color code of the electrode connector, easy to read and use;
3. Excellent shielding performance and anti-interference performance, better signal quality.

Diagnosis EKG Cable & Accessories

Specification

Cable Material	TPU jacket,light gray
Connector &Yoke	Golden plated pins Injection molding process
Trunk Cable Length	1.8m
Lead Wire Length	1.26m(limb lead);0.76m(chest lead)
Connector Proximal	Banana,grabber (Clip),snap,3mm needle

Compliance with

ANSI/AAMI EC53
IEC 60601-1
ISO 10933-1
ISO 10933-5
ISO 10933-10

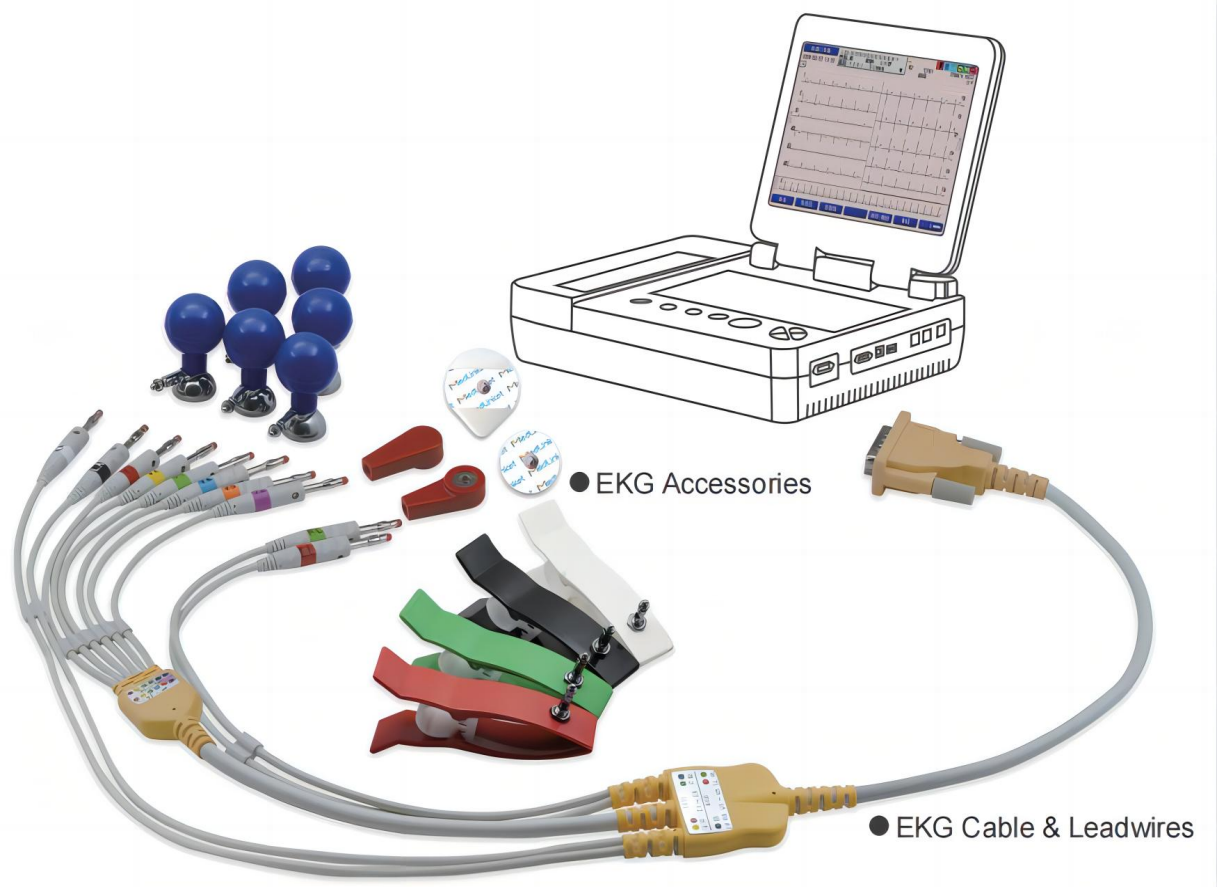

Type Designation

V□□□□ □□

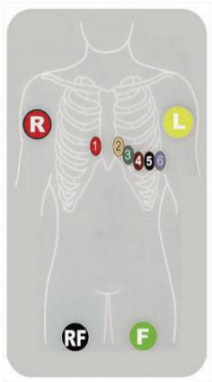

- I: IEC, A: AHA
- **N**: no Resistance, **A**: 4.7 kΩ Resistance, **B**: 10kΩ Resistance, **C**: 20 kΩ Resistance, **D**: 10kΩ+discharge, **E**: 20 KΩ+SPD (Surge protection device)
- Patient end termination: **B**: Banana Plug, C: Clip, **D**: DIN3.0 Plug, S: Snap
- Brand code: as 041: Bionet, 040: Biosys
- Yoke type: **A**: One-piece, B: Lifelinc, **C**: Din style, D: AA style, E: VS style
- V: Cardiogram ECG cable with leadwires

Mainly Compatible Brands

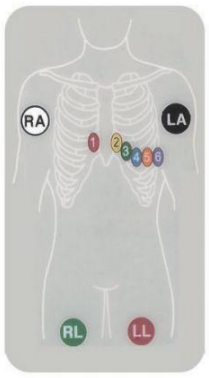

- Philips
- GE-Marquette
- Schiller
- Nihon Kohden
- Spacelabs
- Mindray (China)
- Mortara
- Fukuda Denshi
- Edan (China)

2 EKG Cable and LeadWires

Product Features

1. Easy to replace leadwires;
2. Meeting the requirements of EC53;
3. Outstanding shielding property, Reduces the risk of Electromagnetic Interference (EMI);
4. Excellent defibrillation-proof performance, protecting the equipment well;
5. Flexible and durable cables;
6. Outstanding cable material, enduring repeated cleaning and disinfection;
7. Latex free.

3 EKG Accessories

Product Features

1. For adult and pediatric patients
2. Good biocompatibility, avoiding allergic reactions to patient
3. A variety of EKG machine adapters

OEM Manufacturer & Models	Productor Guide	OEM #	Order Code	Descriptions	For People	
Compatible Mortara						
All Resting ECG Recommended for Nihon Kohden, GE, Philips		Nihon kohden: H043	V0013AB	1. Diameter electrodes 21 mm. Bulb diameter is 26 mm. 2. Metal Electrodes: Nickel-plate. 3. Perfect fit for 3.0 mm Din plug or 4 mm banana plug. 4. 1 box = 6 bulbs	Adult	A0/box
All Resting ECG Recommended for Nihon Kohden, GE, Philips			V0013A-P	1. Diameter electrodes 17 mm. Bulb diameter is 23 mm. 2. Metal Electrodes: Nickel-plate. 3. Perfect fit for 3.0 mm Din plug 4. 1 box = 6 bulbs	Paediatric	A0/box
All Resting ECG Recommended for GE-Marquette, Schiller, Mortala, Burdick, Philips		HP OEM ON: 40419A	V0013C-A	1. Diameter electrodes 17 mm. Bulb diameter is 23 mm. 2. Metal Electrodes: Nickel-plate. 3. Perfect fit for 3.0 mm Din plug or 4 mm banana plug or (4 mm) Snap electrode 4. 1 box = 6 bulbs	Adult	B5/box
		HP OEM ON: 40422A	V0013C-P	1. Diameter electrodes 17 mm. Bulb diameter is 23 mm. Bulb volume is 2cc 2. Metal Electrodes: Nickel-plate. 3. Perfect fit for 3.0 mm Din plug or 4 mm banana plug or (4 mm) Snap electrode 4. 1 box = 6 bulbs	Paediatric	B5/box
Limb Clamp ECG Electrodes						
All Resting ECG Recommended for Nihon Kohden, Fukuda, NEC, Kenz, China		Nihon kohden: H068K	V0012A	– Perfect fit for 3.0 mm Din plug leads – Metal Electrodes: Nickel-plate. – 1 box = 4 electrodes – Color coding: IEC, red (R), yellow (L), black (RF), green (F)	Multifunctio-nal limb clamp	A8/box
			V0012B-I	– Perfect fit for 4 mm banana plug – Metal Electrodes: Nickel-plate.. – 1 box = 4 electrodes – Color coding: IEC, red(R), yellow (L), black (RF), green (F)	Multifunctio-nal limb clamp	A8/box

8 Disposable Defibrillation Pads

Product Advantages

1.Integrates the functions of defibrillation, pacing, monitoring, and cardioversion.
2.The pre-connected cable saves time and helps quickly start the right therapy ,
such as CPR or defibrillation.
3. The pads with color - coded operation indicators help to rapidly position and
simplify the operation.
4. Low contact impedance to reduce skin burns.

Suggested Applications

Defibrillation, pacing, monitoring, and cardioversion

Disposable ICG Electrode

Product Features

1. extra wide sensor site for enhanced impedance signal detection;
2. High quality conductive hydrogel with good adhesion to obtain better impedance signal.

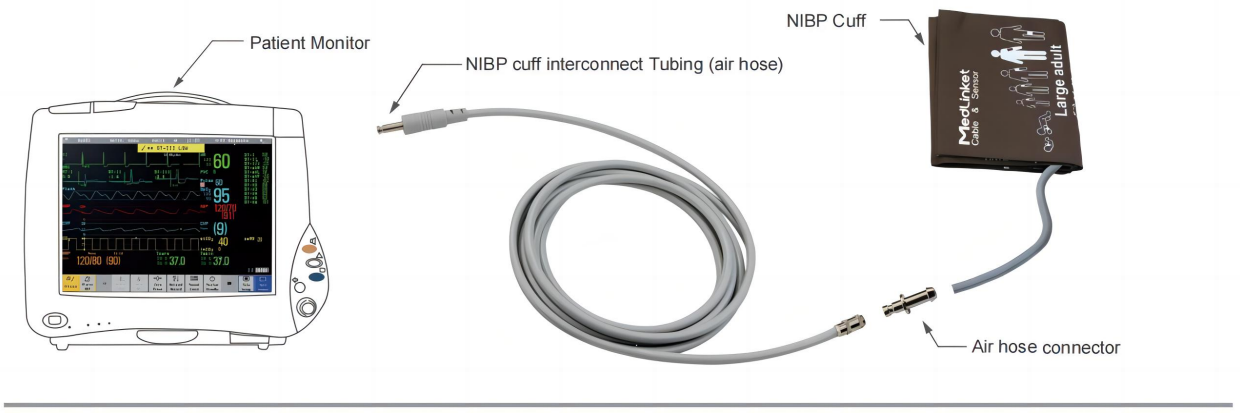

Med-linket offers single-use impedance sensors with the advantages of non-invasive infection risk and simple use for continuous monitoring, without the need for professional training. It is suitable for a wide range of brands and models of equipment in the hospital.

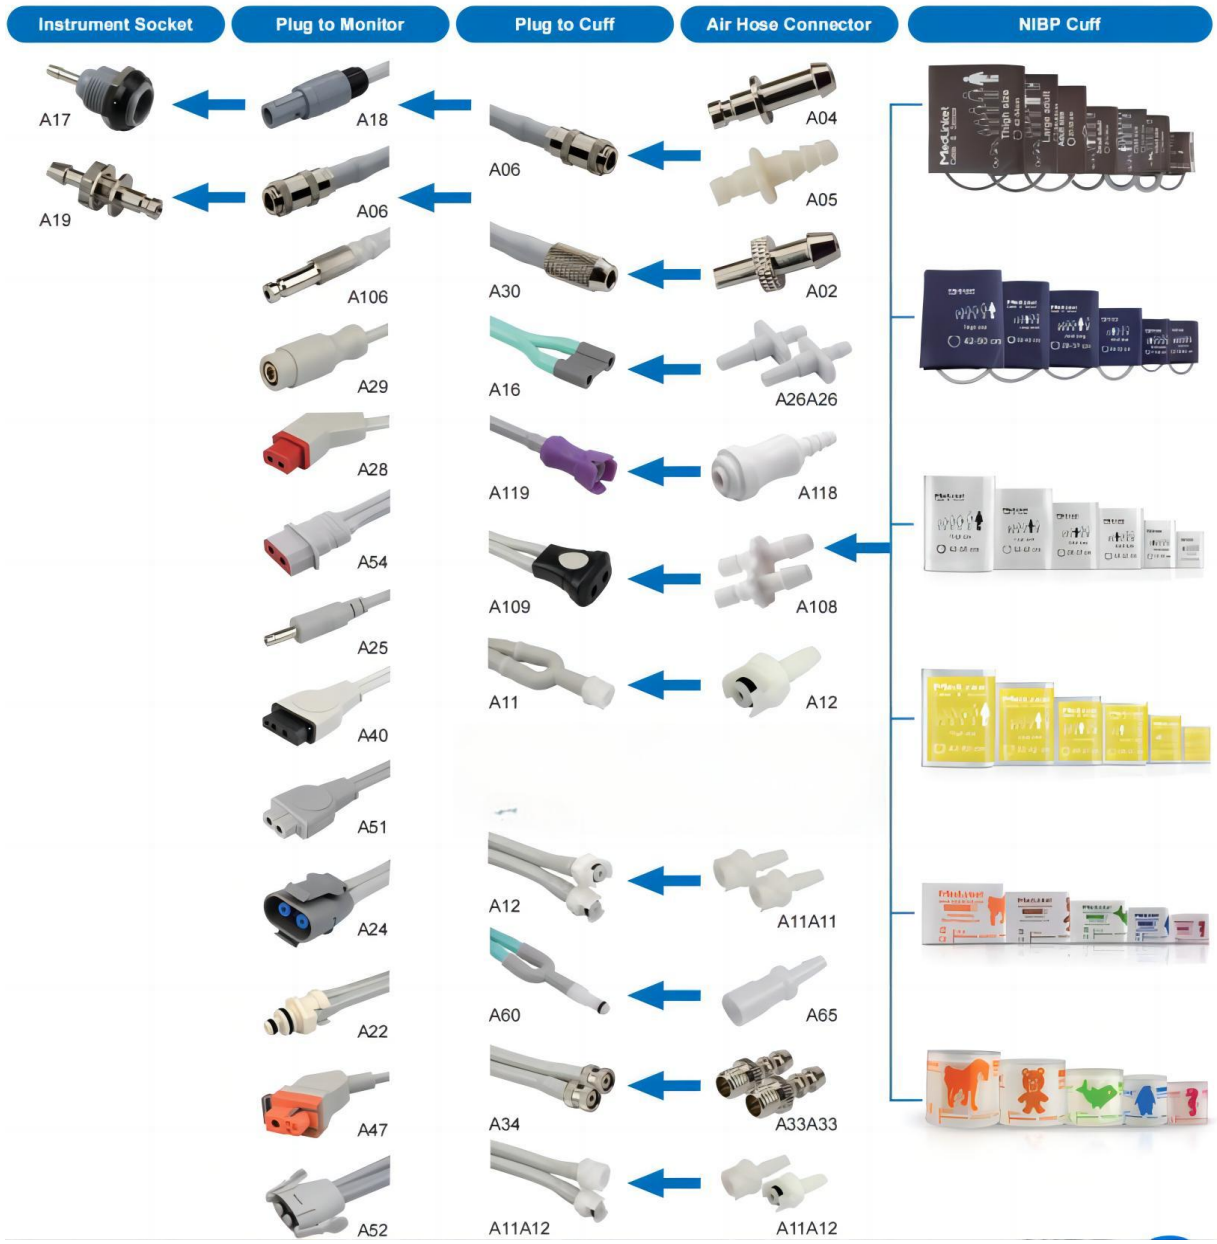

OEM Manufacturer & Models	Productor Guide	Order Code	Descriptions	Applicable Place	
A cardiac output monitor suitable for the ECG main cable of the Din-type splitter, such as Osypka		EC419-4I	4 LD, TPU Cable, 2.5 m	Anesthesiology, ICU, Operating room	
		V0014A-C0234I	Black Red Green White, 610 mm		
Non-invasive cardiac output monitor, hemodynamic monitor		COE0001N	DIN 1.5 Connector, 0.65m		
Impedance cardiac output measurement system		COE0002A	4.0mm button electrode, Adul, Foam, Wet gel		
		COE0003A	4.0mm button electrode, Adult,Foam,wet gel		

NIBP Cuffs & Accessories

Medlinket blood pressure cuffs offer comprehensive programs that help reduce costs and enable workflow solutions in complex hospital environments-Reusable Blood Pressure Cuffs are an easy-to-use and affordable reusable solution, from neonate to adult patients, also supplied disposable cuffs to reduce the risk of cross-contamination. Also the Yellow cuffs are priced as single patient use and support your infection prevention protocols, while tailored for isolation area.

1 Disposable NIBP Cuffs

Product Features

1. Soft, absorbent material for maximum patient comfort
2. Strong enough for repeated inflations
3. Economical enough for single-patient use
4. Easy-to-use range markers and index line for proper size and placement
5. Latex free
6. FDA and CE approved

Scope of Application

1. Operating Room (OR)
2. ICU
3. Neonatology
4. Internal Cardiovascular Dept.
5. Cardiothoracic Surgery Dept.
6. For patients prone to infection such as burns, open surgery, newborns, infectious diseases, etc.

2 Reusable NIBP Cuffs

Code Rule Description

Y 0 0 0 □ □

- 1: Single tube cuff
- 2: Double tube cuff

Cuff type and code:
- T: Adult thigh
- L: Large adult
- A: Adult
- S: Small adult
- C: Pediatric
- I: Infant
- N: Neonate

000: Serial number

Y: NIBP Cuff & Connector

Product Features

1. Gentle nylon and TPU materials cuff;
2. Soft and comfortable, low hazard to skin even if a long-term use;
3. Easy to clean, no bladder, can be cleaned and disinfected directly;
4. TPU bladder ensures good air tightness and long life;
5. Variety of connectors to fit all mainstream monitoring systems;
6. Easy-to-use range markers and index line for proper size and placement;
7. Latex free, PVC free;
8. Good biocompatibility, free from biological hazard to skin.

1.1 Reusable NIBP Bladder Cuffs

Main Features

1. Soft and comfortable, skin friendly, suitable for continuous monitoring;
2. TPU bladder ensures good air tightness and durability.

Scope of Application

For ICU, General inpatient dept.

3 Household NIBP Cuffs

Product Features

1. The jacket is made of nylon fabric, which is soft, skin-friendly and comfortable;
2. TPU inner tank, good air tightness, accurate test and long service life;
3. Clear range markings and operating steps for easy selection of the appropriate cuff and ease of use;
4. Good biocompatibility, latex free, avoid allergic reactions to patients.

Disposable Blood Pressure Cuffs Cover

Product Features

1. The cuff cover will help prevent cross-contamination.
2. Adopted Elastic waterproof non-woven medical material, to prevent liquids from soaking through.
3. It is soft to the skin and will still allow accurate readings.
4. Light, economical and are simply thrown away after use.
5. It offers an added level of protection that is beneficial to both the patient and the blood pressure cuff itself(to keep the cuff from getting contaminated).

Scope of Application

It is used to prevent cross-infection and protect the cuff when the reusable blood pressure cuff is used in the operating room, ICU, and clinic.

Steps for Usage

Step 1:
Wear the disposable blood pressure cuff cover on top of patient's arm.

Step 2:
Apply reusable blood pressure cuff directly over this cuff cover.

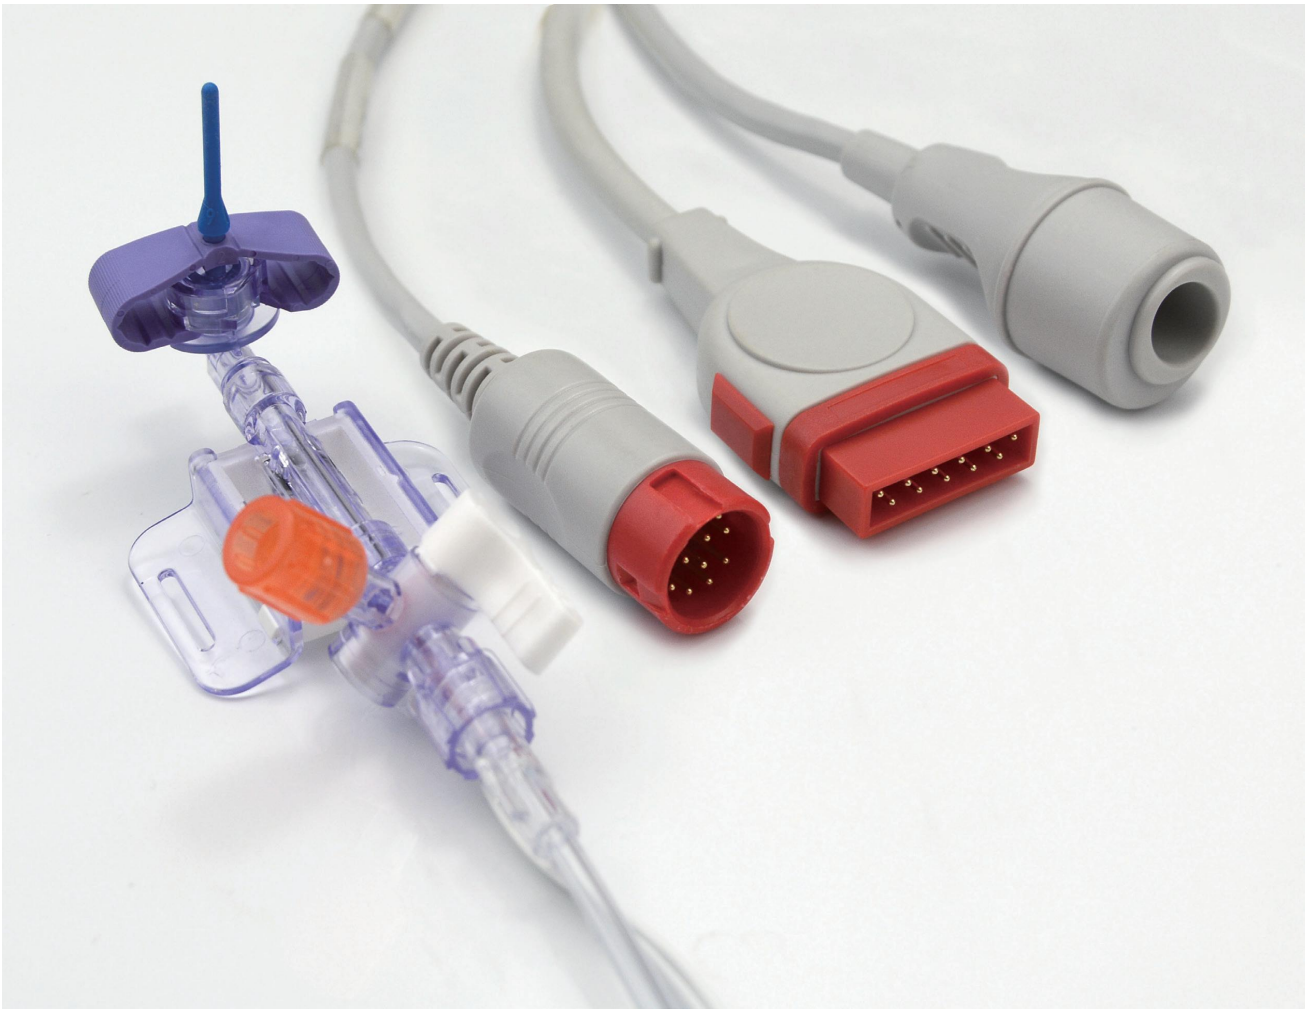

Step 3:
Follow the cuff cover index line and turn over the upper part of the cuff cover outward to cover the blood pressure cuff.

1 IBP Disposable Transducer

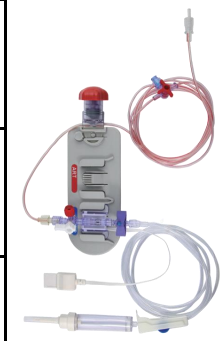

Code Rule Description

1. Sterile packaging, disposable;
2. Monitor various blood pressures in the human body such as central venous pressure, arterial pressure, pulmonary arterial pressure, and left atrial pressure;
3. Adopt imported chip, with sensitive reaction and high accuracy;
4. Can provide a variety of specifications of adapters, compatible with most mainstream monitors;
5. Can be matched with various cable connections;
6. Instantaneous hemodynamic changes can be automatically and continuously monitored;
7. Automatic continuous monitoring and sensitive response;
8. Convenient operation, close cooperation and strong stability

Product Features

Composed of flowmeter, flushing valve, blood pressure sensor, three-way valve, pressure extension tube and IBP cable.

IBP Disposable Transducer with the Closed Blood Function

3 Pressure Infusion Bags

Product Features

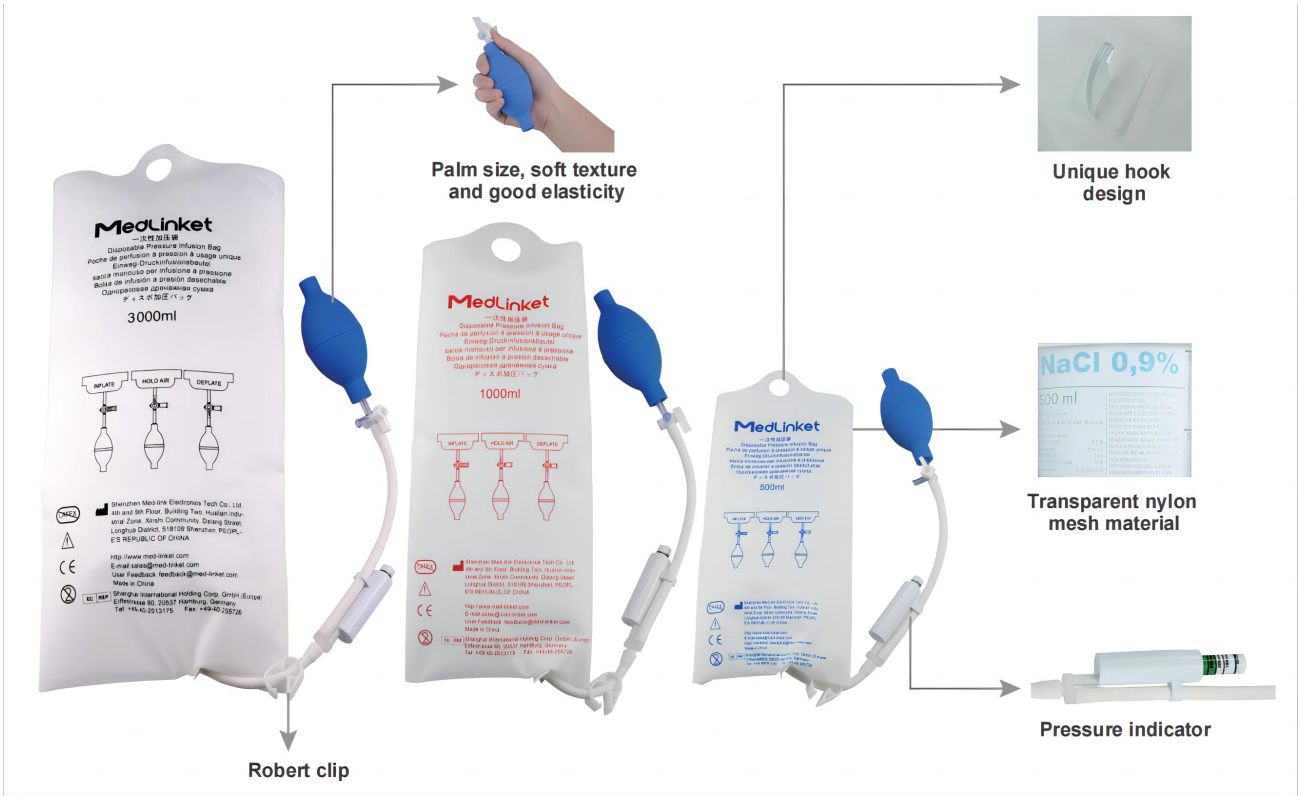

1. Reuse by single patient to reduce cross-infection (disposable);
2. Medical PU composite material, comfortable to use and easier to clean (disposable);
3. Waterproof nylon cloth, not easy to tear; silicone inflatable tube, comfortable and easy to use (reusable);
4. Pressure indicator, precise control of pressure and flow;
5. Balloons with soft texture, good flexible, palm-sized, and efficient inflation;
6. Over-pressure protection device to avoid excessive inflation pressure and burst, frightening the patient;
7. Equipped with Robert clamp, more reliable in pressure holding;
8. The unique hook design, avoiding the risk of falling off after the blood bag or liquid bag volume

Scope of Application

It is suitable for emergency blood transfusion and fluid infusion in various clinical departments such as emergency dept., operating room, ICU, emergency center, etc.

5 IBP Adapter

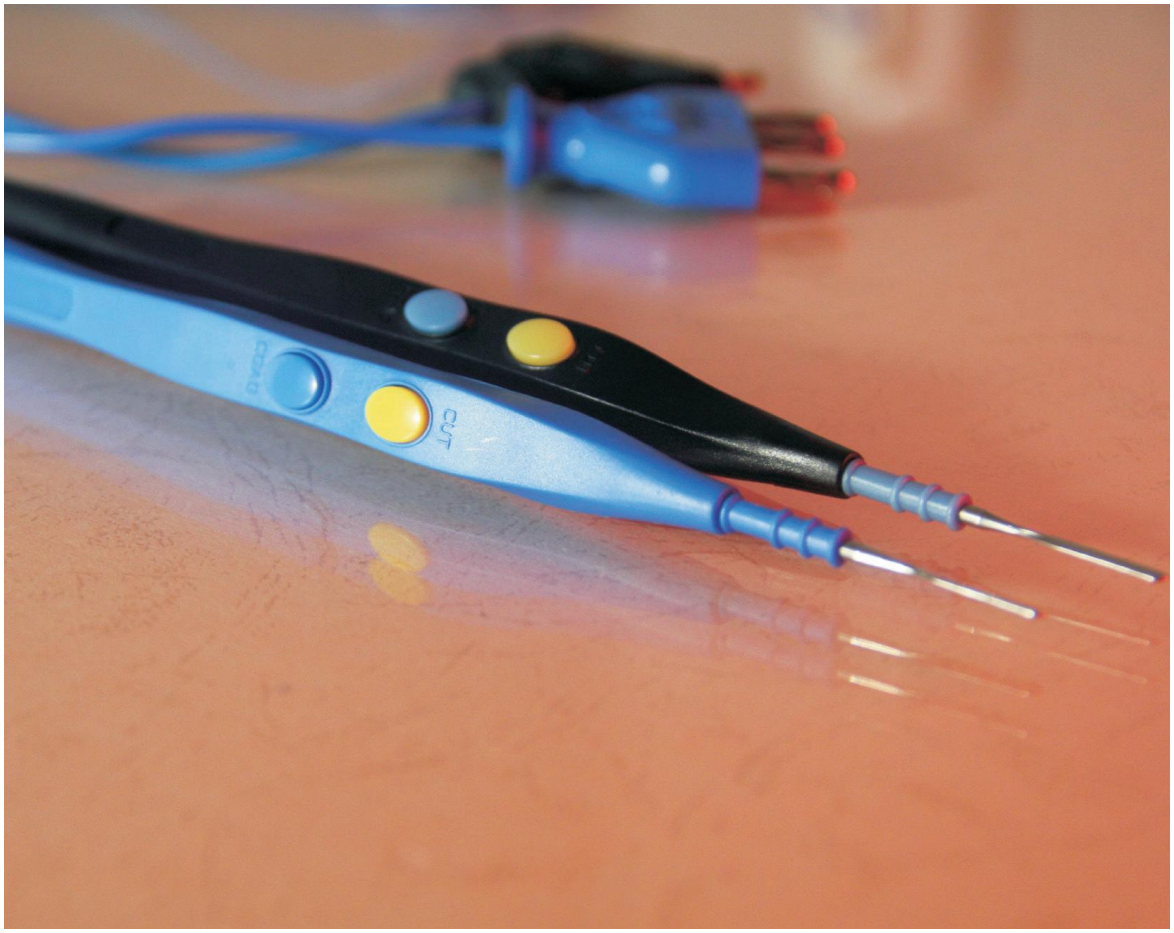

Specification

Cable Material	TPU Jacket, Gray
Connector	Golden Plated Pins
Cable Length	0.3m
Cable Diameter	5.0mm

Product Features

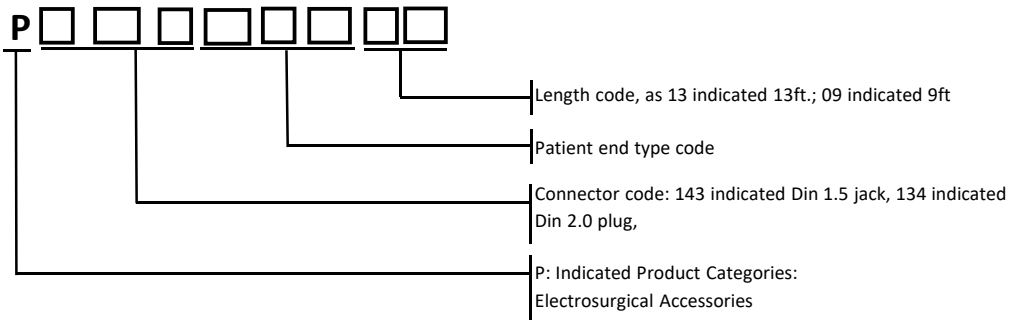

1. Integrated molding process, strong and durable, easier to clean;
2. The arrow mark of the plug connector is clear, the plug handle is good, more comfortable to use;
3. Latex free.

ESU Pencil & Leadwires

Code Rule Description

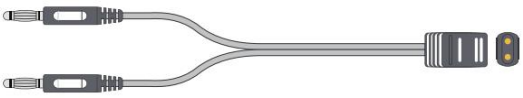

Medlinket can provide high-frequency surgical instrument cables and electrodes (Disposable and Reusable) in a variety of standard and custom。

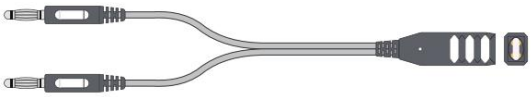

Instrument

P351-148-13 Connecting cable for electrosurgery (Endoscope)

P296-315-10 Bipolar Electrode Cable (US)

P296-297-10 Bipolar Electrode Cable (EURO)

P283-284-10 Bipolar Electrode Cable (EURO)

P285-286-09 Disposable Electrosurgical pencil

P876-877-10 Reusable Foot Control Electrosurgical pencil

P053-281-13 Patient Return Plate Cable

P281-903-13 Patient Return Plate Cable

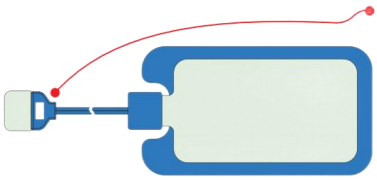

P281-280-13 Patient Return Plate Cable

Active Electrode

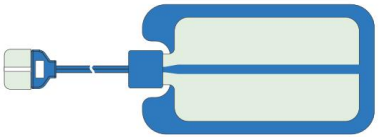

P913-287-03 Disposable ESU Patient Plate-Monopolar

Preset 1m cables to avoid the plug stress patients, add adhesion flexibility, reduce the pollution which Reusable return cables impacted Operation

P913-288-03 Disposable ESU Patient Plate-Bipolar

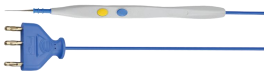

1 ESU Pencil

Product Features

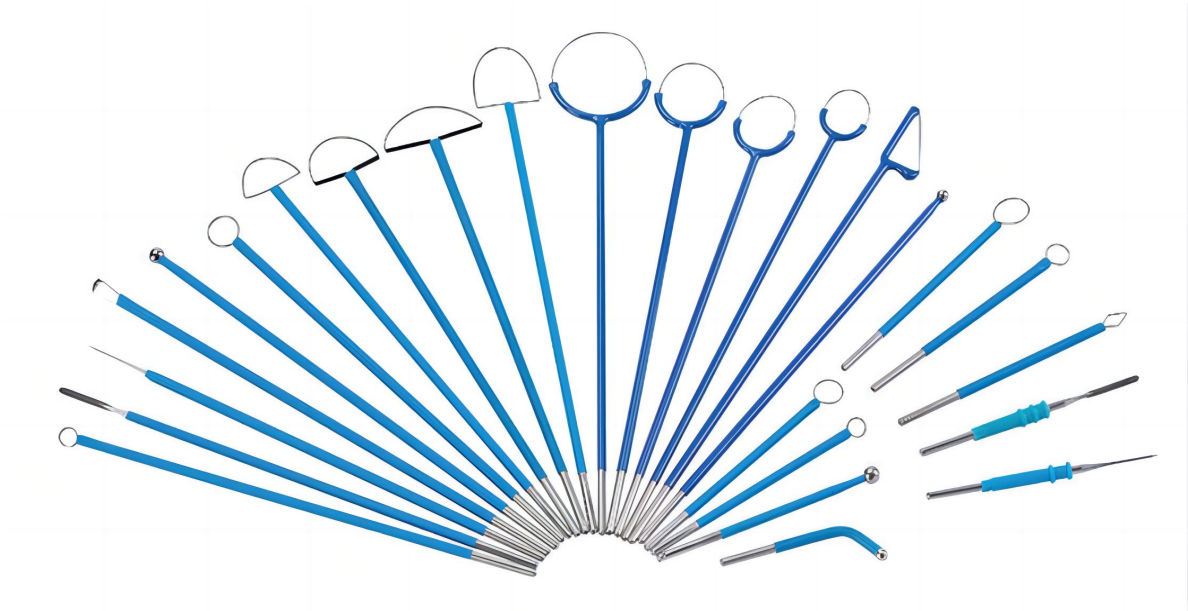

1. Ergonomic design, comfortable feel and excellent mechanical properties;
2. Different shapes of cutting heads can be changed according to the needs of surgery;
3. Closed structure and unique anti-rotation hexagon design, safe and reliable;
4. Extended and increased anti-folding design, strong flexural folding ability, easy to clean, multiple protection;
5. Adaptable plugs can be customized according to adapted model;
6. V type design, easy to plug and unplug, reduced the risk of surgical maximum;
7. Silicone wire, steam sterilizable.

Medlinket Provides Sterile Disposable Electrosurgical Pencil.

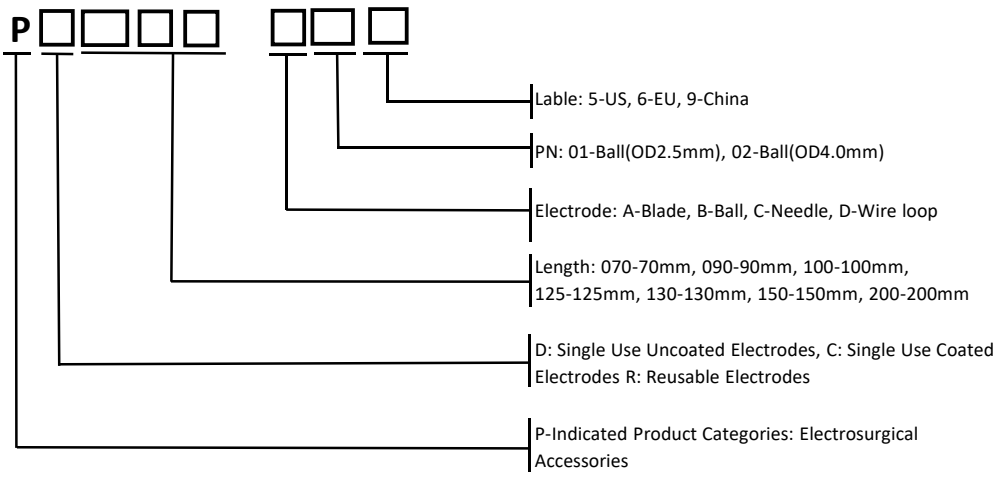

Compatible Brand	Connector	Order Code	Descriptions	
ESU Pencil				
Erbe Valleylab Bovie BOWA Conmed Martin		P285-286-09	Disposable Electrosurgical Pencil Standard Blade Length=40mm Length of wire: 9 ft (2.8m) Cable material: PVC Plug: 3pin banana plug Package: 200pcs/box	
		P285-286-16	Disposable Electrosurgical Pencil Length of wire: 16 ft (4.9m) sterilized by ethylene oxide

Erbe		P876-877-10-R	Reusable Electrosurgical Pencil Standard Blade Length=40mm Length of wire: 10 ft (3m) Cable material: silicone Plug: ϕ4.0 banana plug Package way:1 piece/bag	

We supply common active electrode and customized special active electrode according to customer's requirements.

Medlinket offers a versatile range of single use or reusable specialty electrodes and extensions to help you match the accessory to the surgical application. Single use electrodes include blade,extended blade, needle, extended needle, and ball configurations

2 ESU Pencil Electrode Code Rule Description

For Example:

Order Code: PD070A-01 Disposable ESU Uncoated Pencil Electrode/Blade/70mm

Order Code: PC070A-01 Disposable ESU Coated Pencil Electrode/Blade/70mm

Order Code: PR100B-01 Reusable ESU Pencil Electrode/Ball(OD2.5mm)/100mm

Conmed, Erbe ICC, Erbe VIO, Velleylab, Wolf			8108135	P296-297-10	Length of wire: 10ft (3m) Cable material: silicone Connector type: Φ4.0*2 banana plug,Φ1.8 copper tube (Euro)	
Conmed, Erbe ICC, Erbe VIO, Velleylab			E0509	P296-315-10	Length of wire: 10ft (3m) Cable material: silicone Connector type: Φ4.0*2 banana plug,Φ1.8 copper tube port (US)	
Alcon				P296-316-10	Length of wire: 10ft (3m) Cable material: silicone Connector type: Φ4.0*2 banana plug,Φ2.0 copper tube port (US)	
Erbe ACC/ ICC, T-Serie, VIO				P2028-284-16-R	Length of wire: 16ft (5m) Cable material: silicone Connector type: Φ4.0 red head banana female plug, Electrocoagulation Clamp Shrapnel(Euro)	

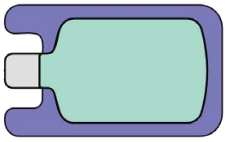

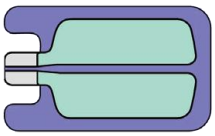

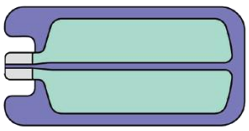

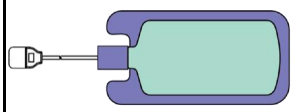

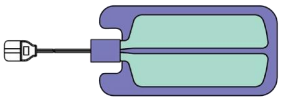

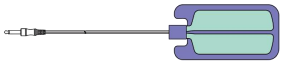

Compatible Brand	Instrument Connector	Patient Connector	OEM #	Order Code	Descriptions	
Bipolar Forceps Connection						
Erbe ACC/ ICC, T-Serie, VIO				P2028-315-16-R	Length of wire: 16ft (5m) Cable material: silicone Connector type: Φ4.0 red head banana female plug, Φ1.8 copper tube port (US)	
Martin, Berchtold, Aesculap GK55, GK60 Integra, Wolf			06018135	P284-2027-16-R	Length of wire: 16ft (5m) Cable material: silicone Connector type: Φ2.0 banana mono plug, electrocoagulation clamp shrapnel(Euro)	
Martin, Berchtold, Aesculap GK55, GK60 Integra				P2027-315-16-R	Length of wire: 16ft (5m) Cable material: silicone Connector type: Φ2.0 banana mono plug, Φ1.8 copper tube port (US)	
Erbe ACC/ ICC, T-Serie, VIO				P283-284-10	Length of wire: 10ft (3m) Cable material: silicone Connector type: 2*Banana Plug, electrocoagulation clamp shrapnel(Euro)	
Valleylab autobipolar Covidien			E0018	P2020-2021-16-R	Length of wire: 16ft (5m) Cable material: silicone Connector type: Φ2.35 Banana Plug, Φ1.8mm copper tube (3 pin)	
Bipolar Forceps Connection						
ALSA, Eschmann				P053-281-13	Length of wire: 13ft (4m) Connector type: 6.35 audio plug connector, grounding pad socket (standard)	
BOWA, Conmed, Erbe ICC, Erbe, VIO, Velleylab				P281-280-13	Length of wire: 13ft (4m) Connector type: “8” shape connector 2*Φ2.35 femal contacts (with pin), grounding pad socket (standard)	
Velleylab, Conmed, Erbe VIO, Erbe international, BOWA ARC				P678-280-13	Length of wire: 13ft (4m) Connector type: “REN” shape connector 2*Φ2.35 femal contacts (with pin), grounding pad socket (standard)	
BOWA, Conmed, Erbe ICC, Erbe VIO, Velleylab non-REM				P677-280-13	Length of wire: 13ft (4m) Connector type: “8” shape connector 2*Φ2.35 femal contacts (without pin), grounding pad socket (standard)	
Patient Return Electrode Cable Adapter						
6.3mm audio socket for High frequency electrosurgical equipment				P2610	Mono 6.3mm Plug, 2.35mm Copper tube socket	

3 Grounding Pad

Product Features

1. Negative plate or circuit negative plate, more uniform current distribution without regard of direction, has good adhesion and conductivity;
2. All materials by biocompatibility trial have been proved to be no-toxic, no-irritating, no-allergic;
3. Various backing materials such as foam and non-woven fabric;
4. Split monopole and bipolar, Suitable for sticking to any different part;
5. Foam and non-woven backing with breathable sticker paste the skin comfortable.

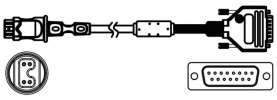

Order Code	Picture	Descriptions	Package	MOQ	
Grounding Pad					
287-P		Grounding Pad, Pediatric, Monopolar	1pcs/bag, 140pcs/Carton	1box	
288-P		Grounding Pad, Pediatric, Bipolar plate	1pcs/bag, 140pcs/Carton	1box	
287		Grounding Pad, Adult, Monopolar	1pcs/bag, 50pcs/Carton	1box	
288		Grounding Pad, Adult, Bipolar plate	1pcs/bag, 50pcs/Carton	1box	
P913-287-03		Grounding Pad, Adult, Monopolar	With 1m cable, 1pcs/bag, 50bags/box, 4boxes/Carton	1box	
P913-288-03		Grounding Pad, Adult, Bipolar plate	With 1m cable, 1pcs/bag, 50bags/box, 4boxes/Carton	1box	
P281-288-09		Grounding Pad, Adult, Bipolar plate	With 2.8m cable, 1 pc/bag, 15 bags/box, 6 boxes/Carton	1box	
P053-288-09		Grounding Pad, Adult, Bipolar plate	With 2.8m cable, 1 pc/bag, 15 bags/box, 6 boxes/Carton	1box	

Ventilator Accessories

Disposable Flow Sensor

1. Accurately measure the patient's proximal flow and pressure data to better
assess the patient's lung condition;
2. Single patient use to prevent cross infection;
3. Clear flow arrow identification and color distinction,easier to identify and operate;
4. Good biocompatibility, latex free, avoid allergic reactions to patients.
